Grant Title: \_\_\_\_\_

<b>Category</b>	<b>Meets expectations outstanding/superior 2 pts</b>	<b>Partial meets expectations Satisfactory 1 pt</b>	<b>Does not meet expectations Unsatisfactory 0 pts</b>
<b>1. Project Goal and Aims:</b>	Proposed project, goals, and aims are a good fit for the purpose of the grant	Proposed project, goals, and aims loosely fit the purpose of the grant	Proposed project, goals, and aims do not fit the purpose of the grant
<b>2. Specific Outcomes</b>	Clearly defines attainable and measurable steps to take to achieve project outcomes; provides expected outcomes of the project.	Provides some specific outcomes, may not be as readily attainable or measurable, or are loosely linked community needs or have limited impact / likelihood of success	Outcomes are absent or incomplete; are difficult to understand; or appear immeasurable
<b>3. Organizational and Community Engagement / community partners</b>	Community partnership in the development and implementation of the project is evident. Organizational resources, project personnel expertise, and environment needed for project success are available.	Community members/organization(s) are consulted in the development and/or implementation of the project but not engaged as partners. Organizational resources, project personnel expertise, and/or environment are limited	Community engagement is missing OR there are insufficient resources, expertise, and environment for likely success of the project.
<b>4. Significance / target population</b>	Identified problem and critical gaps are high priority for the community. Target population is realistic to acquire, reach, and sustain.	Identified problem and critical gap are important to the community. Target population may be difficult to acquire, reach, and sustain.	High priority problem for the community and critical gaps not identified. Target population is unrealistic to acquire, reach, and sustain.
<b>5. Timetable &amp; Likelihood for Completion of Project in 1 year</b>	Timeline for proposed project is realistic and attainable	Timeline for proposed project is challenging, but achievable	Timeline for the proposed project is not realistic.
<b>6. Budget</b>	Budget is complete and contains all required information. Proposed project and budget are cost-effective and linked to activities and outcomes.	Budget is complete but is not cost-effective or not related to activities and outcomes.	Budget lacks required information.
<b>7. Potential to Increase Community Awareness of the Physical Therapy Profession</b>	Project will increase the community awareness of the PT profession	Project will have limited ability to increase the community awareness of the PT profession	Project will not likely increase the community awareness of the PT profession
